Improved Presser Foot

This foot offers improved visibility; longer needle position markings, smoother fabric feeding with reduced front curve, and indented grooves under the foot prevent slippage, changes enhance rolled hem stitching.

8-Piece Feeding System

Additional feed dogs enhance smooth feeding and improved fabric control on all fabric types. Increased performance in bi-level stitching over multiple fabric layers

Quick Rolled Hem Change

No need to swap needle plates for rolled hemming, simply slide needle plate setting knob to "R" and slide pre-tension setting slider to "R.H."
